Peergrade er en platform der strukturerer feedbackprocessen og inddrager de studerende i processen. Når de studerende hver og især har afleveret den tildelte opgave, bliver opgaverne fordelt, sådan at alle giver feedback til en medstuderende. Ved at de studerende tager del i evalueringsprocessen, lærer de at vurdere og reflektere over andres arbejde, samt at give konstruktiv feedback. For underviseren betyder det ofte mere tid til forberedelse af undervisning, samt statistisk indsigt i hvordan de studerende klarer sig.

Sådan gør du:

1)

Opret Peergrade som et tool link i kursusmenuen på BB. Når Peergrade er oprettet her, vil de studerende kunne tilgå alle opgaver, som du opretter i peergrade, fra kursusmenuen i BB.
