

## BALANCING EXPECTATIONS: OTHER STUDENT TEACHERS

- What should the teaching include?
- How do we want to teach (exercises, activities, group work)?
- Will we prepare our teaching together?  
(You may want to agree on a fixed, weekly preparation day)
- How do we divide the work?
- How do we distribute the practical tasks?  
(Make a list of these: print/copy, messages to the students)
- How much time do we need to prepare our teaching?  
(Together and individually)
- How do we communicate during the semester?
- How/when should we meet with the teacher?
- Should the students prepare for the lessons?
- Do we agree on the key concepts and methods of the course?
