

Brainstorm for mind map

Based on the questions below, you should now conduct an individual reflection exercise, brainstorming and writing down keywords in a mind map regarding the good internship story:

- What was the situation?
- What was the task or challenge facing you?
- What did you do?
- What was the result? What result did you achieve?
- What role(s) did you assume?
- Which competences did you use? (Feel free to include both academic and personal competences)
